PROFILE

Full Stack Developer with experience in building scalable web applications using modern frontend and backend technologies. Strong focus on clean code, performance, and efficient problem-solving.

EDUCATION

- | | |
|----------------------------------|-------------|
| • BSc-IT | 2022-25 |
| SPDT College (Mumbai University) | 9.3/10 CGPA |

SKILLS

- **Frontend:** HTML, CSS, Bootstrap, TailwindCSS, React JS
- **Backend:** Java, Spring Boot, ASP.NET/ADO.NET, Node/Express JS, NextJS
- **Database:** SQL, MongoDB
- **Tools:** GitHub, Postman, Power BI

PROFESSIONAL EXPERIENCE

DevMynt 🔗 , *Software Developer* 10/2025 – Present

- Developing full-stack web applications using the MERN stack (MongoDB, Express, React, NodeJS) and NextJS.
- Integrating AI-driven features and building modern & responsive UI

Perceptive Solutions 🔗 , *Software Developer Intern* 07/2025 – 09/2025

- Designed and developed ETL workflows using SQL Server Integration Services (SSIS) for automated data migration and synchronization between multiple servers.
- Implemented CRM modules for customer data management, including lead tracking, automation, and reporting.
- Built data validation and email alert systems using SSIS Script Tasks and Outlook integration.
- Collaborated with cross-functional teams to ensure data consistency, performance tuning, and deployment of integration packages.
- Contributed to backend and UI enhancement tasks using Flask and React.js, improving application usability and responsiveness.

PROJECTS

Projora , *AI Ecommerce*

- **Technologies:** MERN Stack, Razorpay API, Cloudinary, Google OAuth, AI Voice Assistant
- Developed a full-stack e-commerce platform for selling digital projects with secure payment integration and modern UI.
- Implemented Razorpay for online payments, Cloudinary for media uploads, and Google OAuth for seamless authentication
- Added an AI Voice Assistant to enable voice-based navigation and actions for enhanced user experience.
- Built product listing, cart, order tracking, and admin management modules with optimized REST APIs and a responsive React frontend.

DevAI , *AI Chatbot*

- **Technologies:** MERN (MongoDB, Express, React, Node.js), Google Gemini API, JWT
- Developed an AI-powered chatbot capable of answering user queries using the Gemini API for natural language understanding.
- Built a responsive and interactive chat interface using React with secure backend routing in Express and Node.js.
- Implemented JWT authentication to ensure secure user sessions and personalized conversations.
- Integrated real-time message flow, error handling, and context-based responses for a smooth and intelligent user experience.

Rocket Team , *CRM*

- **Technologies:** Python, Flask, SQLAlchemy
- **Description:** Upgraded and modernized the team's internal CRM system by improving UI screens, optimizing database models, and converting old features into clean, efficient Flask REST APIs.

Blog Application

- **Technologies Used:** MongoDB, Express.js, React.js, Node.js (MERN Stack), JWT, Tailwind CSS
- **Objective:** Created a full-featured blogging platform that allows users to register, create, edit, and comment on posts. Implemented authentication using JWT, integrated RESTful APIs for smooth data flow, and designed a responsive frontend to enhance user engagement and accessibility.

Hospital Management System

- **Technologies Used:** Java, Spring Boot, PostgreSQL, JPA, Maven
- **Objective:** Developed a web-based hospital management system to handle patient records, doctor scheduling, appointments, and billing. The system streamlines hospital operations by automating workflows, maintaining centralized patient data, and ensuring secure and efficient data management using RESTful APIs.

Student Management System

- **Technologies Used:** ASP.NET, ADO.NET, MS SQL Server, HTML, CSS, Bootstrap
- **Objective:** Built a student management system to manage student profiles, courses, and academic records. Implemented CRUD functionalities using ADO.NET, designed SQL Server database with stored procedures, and developed a responsive web interface for easy access and efficient data handling.
